Charity Partner Highlight

SAFI + SAFI Extension

Since 2007, Nu Skin has partnered with the School of Agriculture for Family Independence (SAFI) and SAFI Extension to help enrich the lives of farmers living in rural Malawi.

- In 2021, **30** new families graduated from SAFI
- In 2021, **1,008** new farmers were trained in 2021 through the SAFI Extension Program
- Overall, through the two programs combined, more than **10,000** families have been trained.

SAFI's impact stretches beyond just the families it touches. SAFI reports that on average, their graduates go on to train an additional 20 farmers, and 80% of second-year SAFI students serve as lead farmers in their communities, helping to train their neighbors on the curriculum.

Charity Partner Highlight

Seacology

Nu Skin partnered with Seacology to help bring unique solutions to poverty and environmental conservation issues. This year, funding from the Nu Skin Force for Good Foundation helped fund 15 projects worldwide.

One of these efforts included a project in

Wailevu, Fiji

- Conservation efforts focused around the abundance of unique animals to this area: about **1/3** of the birds, reptiles, and mammals found in this area only occur in Fijian islands.
- Seacology efforts created protected **2,258** acres of rainforest and **937** marine acres
- With the grant, the community built a community center that can house a kindergarten, community center, and an evacuation center.
